See The HTC U12+ In A Whole New Light.

htc U12+

See it in a
whole new light.

Our flagship phone just got a little more fiery. Introducing the Flame Red color for the HTC U12+, the latest in our lineup of innovative, eye-catching designs. Flush with red-gold ripples and tints, in a world of smartphone sameness, it brilliantly shines above the rest.

In addition to the Flame Red color, we've also given all HTC U12+ phones significant performance enhancements, a sharper Edge Sense, and tweaks to the battery life and pressure-sensitive buttons. Fire one up and feel the difference today.
